About This Content

CONTAINER PRODUCTS – 20/40FT DRY VAN CONTAINERS

Some months ago, when I was walking around a large shipping terminal in Waigaoqiao, Shanghai, I saw many colourful containers stacked together - which came from all over the world - looking like towering blocks of beautiful skyscrapers. From that time, I planned to make and place these cool iron boxes into my favorite simulator, making our experiences more awesome and more realistic.

Now, you will get a total of 10 styles of 20ft and 40ft dry van containers in your railroad world. You are able to carry them by X2K double-stack container well wagons.

Features Include:

- 10 styles.
- Normal Maps.
- Weathered.

X2K DOUBLE-STACK CONTAINER WELL WAGONS

If you intend to travel between Shanghai and Beijing by train, maybe you'll pass a train with double-stacked containers - chances are it will be these, as the X2 series well wagons are the only double-stack container wagons in China.

The X2 series double-stack container well wagon is specially designed to carry container traffic. Once a X2 wagon equips ZK6 bogies, it's called "X2K", and its max speed is up to 120 km/h.

Three colors of X2K wagons are included, which should be mixed in a long train for a more realistic effect!

Features Include:

- Normal Maps.
- Weathered.
- Rear Sign Light.
- Load Product.
- LOD System.

Title: Trainz Simulator DLC: CONTZ Pack - Basic Edition

Genre: Simulation

Developer:

N3V Games

Publisher:

N3V Games

Release Date: 12 Aug, 2014

DOOR SHOULD WORK NOW

Brings back memories.

10/10. Great game pls dont be stupid its rock paper scissors its a complet luck game and thats it its a fun litel game and its a great game dont lisen to the haters of course ther its no f-ucking skill its a luck game the game its great to have and the tournaments there its no pay to win at all so just give it a try but enter this game whit the ideaa its all pure luck. Its an ok game for its time. Its playable, but it is fairly creepy. Normally I would not buy something like this, but heck. It was 44 cents.. A Clean game, you can see that they put a lot of love doing this game and it's free so play it. [Only for the serious Japaneses bike enthusiast]

Bonzai! This is a fantastic iconic bikes pack that even the Emperor of Japan can agree with and by aqiring a little budjet in credits even you can afford this bonzai pack with the Honda RC 213 V-S!. It doesn't work!!!!!!!!!!!!!! I never liked golf games and expected this game to be lame and dull. I was wrong. It was surprisingly fun with all the challanges and super powered golf balls. If you want to buy a Worms game its most likely not the one you are looking for, but its a pretty fun game so you can give it a shot.. Squigly is the best character in this game, always get her.. This used to be a positive review. Now it is not. You go \u2665\u2665\u2665\u2665in buy this game a year or two again good stuff, you have a nice Discord with a small community. Some of my best friends I met on this game. Then, someone started posting some Isis decapitation\u2665\u2665\u2665\u2665\u2665\u2665on the Discord, and two people who had been on the server for a while were given mod to deal with it.

Fast forward to spring 2017 and the last update rolled out. We were told that a new update would come out soon. That never \u2665\u2665\u2665\u2665ing happened. Fair enough I suppose, games stall in development. But not a word from the devs at all. And then the community slowly starts to thin out. Fastforward again to summer 2018. Only people left are me, the mods, and some new guys who just joined.

These mods are the problem. They keep denying that the game is dead till they get word from the owner. Good \u2665\u2665\u2665\u2665ing luck with that he hasn't said \u2665\u2665\u2665\u2665 all for the best part of a year. Another bad part of this is that the mods think they're bigger than god and if you disagree with them you get \u2665\u2665\u2665\u2665in banned.

This becomes a problem when a guy joins the Discord asking if the community is dead. I said yes, there are literally like 5 people who pay attention to what happens on the Discord. A mod says the game is on a "hiatus until we hear otherwise". I ask them when the last time they played and they just repeat themselves. I say "uh huh" and they tell me not to lip off, and I yet again sarcastically agree to their god complex and I get \u2665\u2665\u2665\u2665in banned.

So long story short the mods who were promoted on a \u2665\u2665\u2665\u2665in whim think they're bigger than God and they ban anyone who disagrees with them, because why not when the owner gives zero \u2665\u2665\u2665\u2665s?

Do not buy this game for the love of \u2665\u2665\u2665\u2665ing god. It now has reduced from a playerbase of like 5 people to 4 thanks to the immaturity of the moderators and the lack of \u2665\u2665\u2665\u2665\u2665 given by the owner.

This game had potential but it's painfully obvious it's been abandoned. The \u2665\u2665\u2665\u2665ing mods deny it because they like the illusion of power over a couple people but if anyone has a fraction of a blind man they can see it's dead as \u2665\u2665\u2665\u2665. Do. Not. Buy. This. Game.. As you've probably read in the other reviews this game has some problems. It features door chimes even though the units featured have never had door chimes, its set in the 70s and yet features the 7 line diamond and circle logos which did not exist yet, and it has few glitches (passenger walks into an invisible wall while attempting to board the train) . The missions aren't very good, they tried too hard to make a simulator into a game and they are all way too arcadey and the last mission is really out of place and weird giving this game a 12 age rating. There are two exceptions to this though 'Whiteout' (Brad Pommeroy) and Black Ice (Adam Livsey) which I found to both be very good except the time limit on the former is way too short encouraging early departures and recklessness'.

Despite this though if you are considering purchasing this I would recommend it. The sound is very well done (although some sounds are reused from WoS3), the graphics are ok, and the world is rendered in typical WoS accurate very high detail with no re-used models or textures (Not sarcasm encase you haven't played WoS). Also as a TML-Studios game you can leave the train and walk around and explore stations and this time the depot. It's worth noting that TML have fixed many things criticized in

other reviews and there is now cab sway for example.

But although I would recommend this game I wouldn't recommend paying £26.99 for it that's a ridiculous move by Aerosoft as all new simulators are generally sold for £24.99 at retail (and TS DLC, which is basically what this is, is sold for £24.99 new as well) not only that but it costs less everywhere else in the world (at least £4 cheaper <https://steamdb.info/app/343070/>). So if you're in the UK I recommend buying it on Amazon where it is cheaper and the DVD activates on Steam plus you get a box, DVD and printed manual. But if you are in the UK I'd recommend WoS 3 (/app/283620).

\u0436\u0443\u0442\u043a\u043e, \u0432\u044b\u0433\u043b\u044f\u0438\u0442 \u0438
\u0437\u0432\u0443\u0447\u0438\u0442 \u043f\u0440\u0438\u0442 \u043f\u044f\u0442\u043d\u043e, \u0432
\u043a\u043e\u043c\u043f\u043b\u0435\u043a\u0442\u0435 \u043a\u0442\u0435\u043f\u043b\u043e\u0445
\u0438\u0441\u0442\u043e\u0440\u0438\u044f, \u0445\u043e\u0442\u0442\u044f
\u0442\u043e\u0440\u043e\u043f\u043b\u0438\u0438\u0432\u043e
\u0437\u0430\u043a\u043e\u043d\u0447\u0435\u043d\u0447\u0435\u043d\u043d\u044f. \u0418,
\u043a\u0441\u0442\u0430\u0442\u0438, \u0435\u0441\u0442\u044c \u0440\u0440\u0443\u0441\u0441\u0438\u0438
\u044f\u0437\u0440\u044b\u043a \u0441\u0442\u043e \u0432\u043f\u043e\u043b\u043d\u0435
\u043f\u0440\u0438\u043b\u0438\u0447\u0435\u043d\u044b\u043c \u0432\u043f\u043e\u043b\u043d\u0435\u043c.. I
decided to not recommend this version of the game because of its additional contributions to the original. A.R.E.S. was already
a decent sidescrolling platformer. This is simply an upgrade in graphics, minor adjustments to game mechanics, and the
inclusion of more story (which is told through cutscenes). Besides those changes, the game is exactly the same as the original
and does not merit the price that it was given at launch and still does not merit. I would only buy this game on sale, even if you
do not own it.. Battle High 2 A+ is not a quality fighting game, not even in comparison to mediocre arcade fighters of the 90's.
Movement is choppy throughout the game (I've only played training and arcade mode), and special moves, especially supers, are
often difficult to execute even though their commands are simple. Speaking of special moves, there are apparently no EX
moves, despite that there is a three-section super meter; in other words, your super meter increases by three stages, yet you can't
do anything with it until it reaches maximum capacity.

There are yet more problems with this game. The excessive pushback that one suffers from successfully attacking an opponent
makes executing combos a difficult task. Combo execution is further complicated by the small size of the sprites: it is difficult
to use spacing to one's advantage when the sprites seem so distant from the player's perspective. (My computer opponents
actually spent most of their time shadow boxing on the other end of the screen!) Lastly, there are serious audio issues with this
game regarding volume levels, specifically. The audio seems fine in the menu, pause screen, etc., but during matches, the music
volume plummets. I have my music volume set to twice the value of the voices and sound effects, yet I can hardly hear the
music during matches. Lastly (for real this time), while stage artwork appears smooth, the sprites are roughly pixelated. If
everything were pixelated, this would actually be a smaller concern, but since only the sprites are pixelated (again, roughly so), it
makes the whole scene look rather awkward.

The game's only saving grace, I think, is in its character concepts. In arcade mode, I played Principal, who is basically a school
principal and aspiring dictator with psychic powers, including the ability to conjure large fists of psychic energy. I tend to
appreciate goofy character concepts such as this; unfortunately, the game's overall flawed design made playing the character
burdensome, not fun. Halfway through arcade mode, I found myself hoping that the experience would be over soon.

In conclusion, although the game has an interesting concept, it plays so poorly that I wouldn't recommend it even if it were free.
If you want a cheap fighting game, make a big wishlist and wait for something much better to go on sale for \$5 or less... or just
buy Last Blade 2 for \$10 and call it a day. :). The game isn't the most polished experience that you can get, but it's definitely fun
and totally worth getting especially since it's free. It currently only has three minigames but they are enjoyable. My personal
favourite was the archery one, it got intense really quickly and gave a sense that the enemies could hurt you. I would definitely
recommend trying it out.. loading simulator 2015 (multiplayer doesn't work.)
